

Luke 15 the parable of the prodigal son

vs 11 a certain man had two sons 12 and the younger of them said to his father, give me the portion of goods that falls to me . so he dived to them his livelihood.

This is one of the good example that Jesus Christ used by the help of the Holy Spirit to show how the world will come together as one family after a long period of one of the family separated from from, its clear showing the two sons as two nations, Israel as a nation and all gentiles grouped up as another nation yet they are all children of one father. Israel is the firstborn nation of God and God chose Israel first as we can see in Exodus 4:22, but this is not that we as gentiles are of different father, as we know we all route to our first parents Adam and Eve, its just that gentile are Gods children too who were lost and separated himself from the father. God as a parent loves all of his children and its not his desire that anyone should perish, he still searching for this lost son in hope that he will change and come back home to the family. A certain man who is the father is a simple term used for God and God gave us a free will to choose a a good way that leads to salvation or a bad way that leads to distruction, its clear that the father knew what will happen to the prodigal son if given his possesion and live on his own he would have said no I I will not to help him but the father chose to give him the possesion so that this child may know how is it to live outside the life familly, he was entering the dead world with no hope full of many challenges that's hard even to bear, but its also away that this child could learn by himself and know the importance of his family and the intention of his father, after given the inheritance we saw he spend on his own pleasure, parting recklessly without thinking what future is bringng, after all the money was finished and no one was left to help, now he should survive on his own, can a man survive out of his on knowledge? It's a clear picture of gentiles world after the fall of man up to today many of the people are trying to look solutions of their own how they can be rich, have good health, trying to figure out the human race in a mans way installing lies of evolution to people so that they can try to escape sin, but they don't have some answers like who am I where do I come from whats the future why am here. Its only the bible which contains the source of information and answers to all that but majority of the world are lost on there own understandin and the most high the

almighty GOD is waiting for as a lost children to identify our meaning our purpose, our hope, repentance and be united with our almighty father. The gentiles were lost and led themselves astray for a long period of time but GOD had a purpose and away of bringing us together in his way if we will turn back from a far strange land we ran into which leads to death and start a journey of going back home through identifying ourselves and repenting as we recall the words of the prodigal son after a long suffering he remembered vs 17 **but when he came to himself, he said, how many of my fathers hired servants have bread enough and to spare, and I perish with hunger.** We see here that the first step was getting to himself knowing himself, it's a question that should arise what's to know your

Self? Knowing yourself and your purpose cannot be solved by a man made thinking like that of evolution but scriptural meaning of man's life and the plan of God to mankind which is only found in the bible so by all this challenges of life by digging deeper into the bible a person through process will know himself now what follows after knowing yourself? Vs 18 **I will arise and go to my father, and will say to him, father I have sinned against heaven and before you.** The first step we see is knowledge by identifying ourselves and the second one is knowing our mistakes or trespasses we've made and ask for forgiveness, God is merciful and forgives all sin if we learn to be humble and accept or admitting our faults and asking for forgiveness, our father's arms are wide open every time to welcome us back to the family through Christ Jesus our Lord and the hope of uniting the world as one family under one leadership of God almighty. As a gentile nation we were lost and now GOD made a way back home through Christ Jesus our Lord as we read there is much more joy in heaven for one sinner who repents and turn back to the right path of God almighty, GOD loves us all because we are all from him no Jew nor Gentile if we all do the will of GOD and get out of the far land of destruction to the good path of life God is faithful and will give us back the good share in the kingdom to be with him and to be as one family forever. What a plan from our father we were so happy that we were found, let's continue keeping the knowledge into practice and always praying for each from this call of unity into the one family in eternity.
